## Compatibility with mixed-composite pipe systems

Our **MAINPRESS Pressing-System** (DW-8501BU0326) with the **MAINPIPE** multilayer composite pipe PE-RT/AL/PE-RT (DW-8236BU0016) is compatible with:

Composite pipe UPONOR-UNIPIPE MLC with press fittings MLC (Processing Fitting S-Press Plus only with approved pressing jaws)  
Composite pipe WAVIN with press fittings K1, M1, K5 and M5  
Composite pipe MULTITUBO with press fittings MT  
Composite pipe Jupiter-Perfekt Aqua with press fittings MP/KF  
Composite pipe COES with COES press fittings for press contour U (KSP5)  
Commercially-available press tools with press contour U (KSP5)

Should leakage occur among the mentioned single components and the MAINPRESS System, MAINCOR will determine the error reason and assume warranty if the third-party products are technically impeccable and their processing has been made in accordance with our mounting and laying guidelines. Legal warranty of the respective manufacturer for the products in circulation remains unchanged.
